

King County

Health Reform Initiative

Instructions Table Top Exercise

- 1. Each packet contains 7 scenarios. The scenario your table will solve is written on the table tent in the center of your table. Other tables will solve the other scenarios. All scenarios are included in your packet so you can follow along during reporting out and so you can further explore each scenario after the event.**
- 2. We recommend designating:**
 - a. One person to read the navigation instructions aloud.**
 - b. One person to navigate the website.**
 - c. One person to report out your table's results which will include a description of the scenario, how you solved it and which of the Health Reform Initiative goals it accomplishes.**
 - d. The rest can observe. (*Note: there should be enough time for one than one person to navigate through the website*)**
- 3. Read the background and scenario carefully.**
- 4. Use the instructions and screen shots in the "Tools" section to solve your scenario.**
- 5. Once you have solved your scenario, as a table discuss and identify which of the four Health Reform Initiative goals listed under "Outcome" is solved by the scenario.**
- 6. During reporting out, the person from your table that has been chosen to report out will describe the background and scenario, how the table used the online tools to solve the scenario and which of the Health Reform Initiative goals it accomplishes.**
